Professional Summary

I am a Computer Science Engineering graduate with experience in building full-stack web applications and AI-powered tools. I have worked on projects like an AI Spend Audit Tool and a Restaurant Order Management System using technologies such as JavaScript, **TypeScript**, **React**, **Next.js**, PHP, **Node.js**, MySQL, and Supabase. I have earned 76 Google Cloud Skill Badges and solved 350+ DSA problems in C++. I enjoy building useful products, learning new technologies, and am looking for an opportunity to grow as a Full-Stack Developer.

Projects

AI Spend Audit Tool
Tech Stack: Next.js | TypeScript | React | Tailwind CSS | Supabase | Gemini API | Resend
• Built a free full-stack web app auditing startup AI tool subscriptions (Cursor, Copilot, Claude, ChatGPT, Gemini, Windsurf, and others) with a rule-based engine evaluating plan fit, seat count, and use-case alignment — surfacing per-tool recommendations, a sourced pricing database linked to official vendor URLs, and instant monthly/annual savings on screen.
• Integrated Gemini API for a personalised ~100-word plain-English audit summary (with templated fallback), email-gated lead capture via Resend, unique shareable result URLs with Open Graph and Twitter Card meta tags, and IP-based rate limiting with honeypot abuse protection.

GitHub | Live Demo

Restaurant Order Management System
Tech Stack: HTML | CSS | JavaScript | PHP | MySQL | XAMPP
• Built a full-stack restaurant platform where customers browse the menu, manage a cart, place orders, and reserve tables — all from a single page with OTP-verified phone authentication.
• Implemented a secure order pipeline with CSRF protection, session-based cart management, OTP expiry and rate limiting, and auto-generated downloadable PDF invoices on order confirmation.
• Developed a centralised Admin Dashboard to manage menu items, monitor live orders, handle table bookings, upload gallery images, and control admin accounts with role-based access.

Skills

Languages	C, C++, Python, JavaScript, TypeScript, PHP, SQL
Frontend	HTML5, CSS3, JavaScript (ES6+), React, Next.js, Tailwind CSS
Backend & Database	PHP, Node.js, MySQL, Supabase, REST APIs
Tools	Git, GitHub, GitHub Actions (CI/CD), XAMPP, Chrome DevTools

Education

Khwaja Moinuddin Chisti Language University, Lucknow
B.Tech in Computer Science and Engineering
Graduated: October 2025
CGPA: 7.76/10

Mahamaya Polytechnic of Information Technology, Kanpur Dehat
Diploma in Civil Engineering
June 2022
Percentage: 74.14%

Gyan Sthaly Public Inter College, Jhansi
High School (10th)
February 2019
Percentage: 88.5%

Certifications & Courses

Google Cloud Skills Arcade — 76 Skill Badges over 19 months
Completed challenge labs in live GCP environments (BigQuery, Kubernetes, Vertex AI, IAM) and gained hands-on experience with real cloud products.
| Google Cloud Profile |

Nov 2023 – Jun 2025

Data Structures & Algorithms using C — SWAYAM / NPTEL

May 2025

Achievements

Solved 350+ DSA questions on [LeetCode](#), [GeeksforGeeks](#) and [CodeChef](#) using C++.

76 Google Cloud Skill Badges earned over 19 months in the Google Skills Arcade, with the highest milestone counts in the program.
